MODULE 3: EXAMINER MODEL RESPONSE & CRITERIA BREAKDOWN

Band 8.5 Counter-Argument & Refutation Model:
While opponents argue that providing universal free university education would overburden government budgets and lead to excessive taxation, this reasoning is fundamentally short-sighted. Investing national funds in higher education yields substantial long-term economic dividends, as highly educated graduates generate greater productivity, earn higher salaries, and subsequently contribute vastly more income tax over their professional careers. Therefore, public funding for tertiary education represents a profitable strategic investment rather than a fiscal drain.

Official Band Criteria Analysis:
• ***Task Achievement / Response:*** *All bullet points / prompt requirements fully extended with relevant circumstantial evidence.*
• ***Coherence & Cohesion:*** *Natural paragraph progression without forced, mechanical linking markers.*
• ***Lexical Resource:*** *Precise, context-appropriate academic collocations (e.g. 'profound disappointment', 'remedial action', 'substandard quality').*
• ***Grammatical Range & Accuracy:*** *Mixture of conditionals, passive voice, and complex subordinate clauses with zero mechanical punctuation errors.*
